Academic Details

- **Bachelor of Engineering (BE) Computer Engineering**
PGMCOE Wagholi, Pune;
CGPA: 8.48 (2023)

Soft Skills

Analytical | Collaborator | Leader | Adaptable

Technical Skills

- **Programming Languages:**
Java, Python, PHP.
- **Frameworks:**
Angular, React, Spring boot.

Core Competencies

Agile Methodologies

Software Development Life Cycle

RESTful API

Debugging

Containerization

Web Services

Microservice Design

Performance Optimization

System Scalability

Personal Details

Date of Birth: 16th March 2000

Languages Known: English, Hindi & Marathi

Address: Pune, Maharashtra

Profile Summary

- **Highly motivated Software Engineer** with a strong foundation in Java, OOP concepts, and frameworks (JPA, Hibernate, Spring Boot).
- **Full-stack development experience** gained through an 8-month plus software development internship & current job.
- **Proficient in web development technologies** including Java, Python, Angular, Bootstrap, JavaScript, HTML, and CSS.
- **Detail-oriented** with a commitment to efficient coding practices.

Work Experience

Software Engineer Associate
VISH OLMEDIA PVT LTD., PUNE

Feb 2025 – Onward

Responsibilities:

- Participated in requirement analysis and translated business requirements into technical specifications to support software development initiatives.
- Collaborated with cross-functional teams including QA, Product Management, and DevOps to deliver high-quality software solutions on time.
- Utilized GitHub for version control & provided technical support during deployment.
- Shared knowledge with team members and supported junior developers.

Software Developer Engineer
ENOSIS SOLUTIONS PVT LTD., PUNE

Dec 2023 – July 2024

Responsibilities:

- Designed and developed full-stack web applications using HTML, CSS, JavaScript, Java, JSP, Spring Boot, and RESTful APIs.
- Conducted thorough testing, including unit tests (JUnit), integration tests, and UI/UX testing (Selenium), to identify and resolve software issues, enhancing overall system performance and reliability.
- Contributed to project documentation, including design specifications, technical manuals, and user guides.

Achievements:

- Successfully delivered multiple web development projects, meeting tight deadlines and exceeding client expectations.
- Gained comprehensive understanding of the software development lifecycle, improving proficiency in project planning, execution, and management.
- Improved application performance by identifying and addressing critical bugs, resulting in a more robust and reliable software product.

Academic Projects

Analysis & Prediction of student's academic performance based on educational data mining

Tools: ML, Naïve Bayes, Random Forest, SVM, SQL, Python, JS, etc.

Roles: Software Programmer, Deployment.

- Developed a predictive model for student academic performance using machine learning algorithms.

Placement Management System

Tools: Angular, MySQL, Spring boot, API Programming, Java, etc.

Roles: Software Engineer, Full-Stack Development.

- Developed a full-stack web application utilizing Angular, Spring Boot, and MySQL.
- Implemented core functionalities including student CRUD operations.
- Leveraged RESTful APIs and Java for seamless data exchange and optimized application performance.
